-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☒ Responsive to communication(s) filed on 27 April 2006.

## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

1. Claims 1, 2, 5-23, 25, 27-33 and 36-43 are rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Patent No. 5,429,612 to Berthier (cited by applicants).

Berthier discloses a barrel 7, cannula 6, plunger 5, shield 8, urging member 20, pin 26 and one-way step 27. See Figures 1-3. Berthier also shows an entry track 23 and a lockout track 25/28. It is considered that merely touching the shield would be interacting with the patient's skin.

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claim 24 is rejected under 35 U.S.C. 103(a) as being unpatentable over Berthier.

Berthier discloses a shield syringe arrangement with a single track arrangement. Berthier does not disclose expressly two track arrangements. At the time the invention was made, it would have been an obvious matter of design choice to a person of ordinary skill in the art to include a second track arrangement because Applicant has not disclosed that a second track

Art Unit: 3767

arrangement provides an advantage, is used for a particular purpose, or solves a stated problem.

One of ordinary skill in the art, furthermore, would have expected Applicant's invention to perform equally well with the single track arrangement of Berthier because both would provide a guide for the shield to move into a locked, shielded position. Therefore, it would have been an obvious matter of design choice to modify Berthier to obtain the invention as specified in claim 24.

### *Response to Arguments*

3. Applicant's arguments filed 27 April 2006 have been fully considered but they are not persuasive.

Applicant argues that since the branches 23 and 24 of Berthier do not intersect, it cannot anticipate the claimed subject matter. It is the Examiner's position that the lockout track includes element 25. Thus, the two branches of Berthier intersect. The rejection under 35 U.S.C. §102(b) is hereby maintained.

### *Conclusion*

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Art Unit: 3767

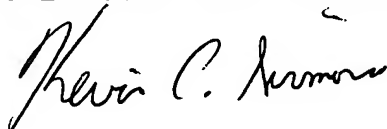

however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
